PHILADELPHIA BACKROOM POLITICS IS AIRED

INFERENTIAL VOTE BUYING IS ALLEGED

CORRUPTION OF COUNTING ALSO
RELATED BY WIT-
NESS

PHILADELPHIA CITIZENS APA-
THETIC ABOUT CONDI-
TIONS

Washington, June 12.—(UP)—A story of backroom politics, inferential vote buying and corruption of counting was related to the senate primary investigation committee today by T. Henry Walnut, chairman of the Philadelphia committee, which acted for Governor Pinchot in the May Pennsylvania senatorial primary.

Walnut charged that the republican organization of Philadelphia and the system that it had built up are responsible for the unusual conditions in the Quaker City. "Citizens there are satisfied to let organized politics become unrestrained in buying elections through money and promises," he declared.

"They are apathetic," he said. "You cannot get a rise out of them."

"In other words they are content to stew in the juice of their own corruption?" asked Senator King, Utah.

"Well, Pepper had no organization except a portion of the regular organization," he said. "I can tell you at 12 o'clock if the Vire and Mellon organizations have made peace."

If W. Harry Baker is elected chairman of the republican state committee in Philadelphia today they have not made peace. If W. L. Mellon, nephew of the secretary of the treasury, is elected, they have made peace." (Mellon was elected).

Frederick K. Beutel, Pittsburgh, chairman of the Pinchot speakers and meetings committee, described the method of paying off watchers and workers at Pepper-Fisher headquarters in the Hotel Henry, Pittsburgh.

"There was a constant line 150 or 200 feet long in front of the pay window," Beutel said. "They paid 200 to 300 an hour under the system. I saw them paying actively on Wednesday, Thursday and Friday. On Saturday the line was not so long."

Beutel said he saw "one man with a roll of apparently \$10 bills that big"—pointing to an ash tray three inches in diameter.

He said he thought S. J. Topley, treasurer of the Pepper west state campaign committee, who testified last night, had acted as paymaster although he was not sure.

At Vire headquarters, the scramble for money was even more vigorous.

"They paid off in Vire headquarters Wednesday and Thursday," said the witness. "The line on those two days was about six feet wide." The rest of the week payments were made from an alderman's office.

Neither headquarters had any lists but apparently payments were being made on slips being brought in by workers.

Washington, June 12.—Everybody who was "good for \$1,000" for the George Wharton Pepper million dollar campaign fund was put on Pepper's senatorial campaign finance committee, Robert Glendenning, a Philadelphia banker, who organized the committee, told the senate investigators today.

Glendenning said that when he started Pepper's Philadelphia organization he went to everyone he thought was "good for a thousand."

"I got 30 or 40," he said. Glendenning said most of those from whom he obtained money were big business men and capitalists. Reading from the lists of the committee he described the business connections of each at the request of Senator Reed, democrat, Missouri, chairman of the investigating committee.

INDICT MILLIONAIRE MERCHANT OF OMAHA

Omaha, Neb., June 12.—(UP)—Ward M. Burgess, former Omaha millionaire merchant, was indicted by a federal grand jury here on charges of conspiracy to use the mails to defraud in connection with the \$2,000,000 failure of the Burgess Nash Dry Goods company last year.

Burgess is now manager of a bond house in Wall street, New York.

Others indicted with Burgess were John F. Dailly, former manager of the store; F. Ahlforth and Morey Van Porter. There are 30 counts in the indictments.

Chicago Prepares for Great Religious Gathering

5 SOFT DRINK BARS RAIDED IN WINONA

Winona, Minn., June 12.—(UP)—Five soft drink bars were raided by federal prohibition agents Friday, but they had difficulty in one place and had to use fists before the trouble was over.

The fight occurred in a place which Dan J. Mlynzek is alleged to own. Mlynzek, according to the officers, objected to the dry agents seizing a quantity of moonshine. He was arrested.

A quantity of moonshine, beer and alcohol was seized in the raids and five other persons were arrested and placed in jail here.

NATIONAL OFFICERS TO ADDRESS THE LEGION AUXILIARY

TO MEET AT MINOT JUNE 23 AND
24, ANNOUNCEMENT
MADE

DURING CONVENTION NEW DE-
PARTMENT FLAG IS TO BE
PRESENTED

Fargo, N. D., June 12.—(UP)—Four and possibly five national officers will address the state convention of the American Legion auxiliary in Minot, June 23 and 24, Mrs. Abbie Conney, state secretary, announced today.

Greetings from the Legion will be brought to the women's organization by Walter G. Curtis of Lisbon, department commander; Jack Williams of Fargo, department adjutant, and William Stern of Fargo, acting national committeeman.

During the convention the new department flag will be presented with ceremony to Mrs. Anna L. Hazen, department president. The awards for members also will be conferred. The Ray unit will receive the silver cup for showing the greatest percentage in increase in membership over last year.

The banner for organizing the greatest number of new units goes to the second district. Eight-five William Stern engraved spoons will be given to 51 units for membership gains. Fargo receives five, the largest number to be given to any one unit.

"Guardianship work" will be the subject of an address by C. T. Hoverson of the United States Veterans Bureau. An address of Colonel E. S. Persons will feature the banquet to be given by the Minot unit the opening night of the convention.

FIND BODY AFTER SEARCH OF 48 HOURS

Kensington, Minn., June 12.—(UP)—A forty-eight hour search had ended today with the finding of the body of Algot Nordquist, 23, in the Chippewa river.

A bullet hole in Nordquist's right temple led to the belief that he stood on a rock in the center of the river and shot himself in a demented attempt to prevent recovery of his body.

Nordquist had been working for an uncle, Ole Rue, in Evansville township. He left the Rue farm home with a 44 calibre rifle and a searching party which set out after him hunted for two days before his body was found in the river. He apparently had been dead since the day he disappeared.

TON COUNTERWEIGHT OF ELEVATOR FALLS ON AND CRUSHES MAN

Moorhead, Minn., June 12.—(UP)—Louis Nygaard, 45, was killed here today when the one ton counterweight of an elevator fell on him while he was working in the elevator shaft at the Fairmont creamery. His widow survives.

GEN. PERSHING SAILS FOR FRANCE

New York, June 12.—(UP)—General John J. Pershing, chairman of the American Battle Monument commission, sailed for France today on the liner Leviathan. General Pershing will select sites for monuments to American soldiers in the world war. The Leviathan carried two thousand other passengers.

BUMPER WINTER WHEAT CROP FOR THIS YEAR

PAUL H. KIRK, MINNESOTA AG-
RICULTURAL STATISTICIAN,
IN CROP REVIEW

OTHERWISE IT'S A MORE OR LESS
GLOOMY PREDICTION
FORMULATED

S. t. Paul, June 12.—(UP)—A bumper winter wheat crop outlook is the only bright spot in the monthly crop report of Paul H. Kirk, Minnesota agricultural statistician, made public today.

Otherwise a more or less gloomy forecast is made in the report, especially regarding grains, production of which is estimated far below normal. The June 1 condition of rye, for instance, indicates a yield less than one half of normal.

The same condition but to a lesser extent applies to spring wheat and hay, the report says. The condition of oats and barley, however, is not much lower than on June 1 last year.

Kirk's report in part follows:

"The forecast production of winter wheat in Minnesota based on the June 1 condition is placed at 2,900,000 bushels compared with the five-year average of 2,113,000 bushels. The June condition of rye forecasts a crop of only 5,010,000 bushels as compared with the five year average of 13,354,000 bushels.

Spring wheat, winter wheat, oats, barley and rye were not in the best condition compared with the 10 year average, but oats and barley are not much poorer than on June 1 a year ago while the condition of winter wheat is better than a year ago, and spring wheat, rye, hay and pastures show a poorer condition.

"Outside of the southeastern part of the state, there was not enough moisture to carry the crops in the best condition, on an average June 1 condition. There were good rains particularly in the Red River Valley, the latter part of May, which for the time relieved a very serious condition.

"The condition of winter wheat June 1 is placed at 73 per cent of normal or 14 per cent better than on June 1 of last year. There is quite a heavy acreage in the southeastern portion of the state where conditions are good. The crop has headed and should weather conditions continue favorable a good crop can be anticipated.

"Rye conditions June 1 were only 70 per cent of normal and forecasts one of the poorest crops produced in recent years as considerable of the rye is in the dry area, and headed short with small heads and thin stands.

"Spring wheat condition June 1 was 78 per cent of normal compared with 88 per cent one year ago and 92 per cent the 10-year June 1 average. Continued dry weather and dust storms were the factors for the low condition. It now appears that the acreage of all spring wheat will show a decrease from the average harvested one year ago.

Conditions in the southeastern part of the state are responsible for a higher condition June 1 of oats and barley than for spring wheat, as very little spring wheat was grown in that district.

"The June 1 condition of oats was 81 per cent compared with 85 per cent one year ago and 92 per cent the 10-year June 1 average. The condition of barley is estimated at 81 per cent compared with the 85 per cent one year ago and 92 per cent the June 1 average.

"The condition of all hay, both tame and wild, is not good this year, taking the state as a whole, due to continued lack of rain and especially the deficiency in May. The condition of all tame hay June 1 was 69 per cent of normal, compared with 73 per cent one year ago; wild hay condition June 1 this year was 65 per cent of normal compared with 69 per cent one year ago; timothy hay condition June 1 was 67 per cent; clover 68; clover and timothy mixed 68, and alfalfa 76 per cent.

"The June 1 condition of pastures is low, being 64 per cent of normal. Rains the latter part of May improved conditions, but pastures were still below the average.

"The condition of apples June 1 79 per cent of normal compared with 46 per cent one year ago and 83 per cent the 10 year average. This con-

MOB COUNTERS CAVALRY CHARGE WITH AUTOMOBILES

Prague, June 12.—(UP)—A four hour battle between police, communists and socialists was staged in Havleek square last night following demonstrations against tariff increases. Four policemen were seriously injured, 56 were wounded in varying degrees and 60 rioters were injured in the conflict in which the demonstrators fired shots, threw paving stones and bottles and used knives.

Communist Deputy Harusz was seriously wounded. The crowd countered a mounted police charge by driving automobiles, brought into the square for use as speakers' platforms against the police horses, seriously crippling many of them. Rain beat down on the heads of the struggling throng.

40 FASCISTI USE CHAIRS IN AN ATTACK

BREAK UP MEETING COMMEMOR-
ATING DEATH OF DEPUTY
MATTEOTTI

AUDIENCE IS STAMPEDED, WO-
MEN ARE TRAMPLED
UPON

Geneva, June 12.—(UP)—Forty fascisti, including two Italian members of the secretariat of the League of Nations, today attacked a meeting held in commemoration of the anniversary of the death of Deputy Matteotti of the Italian chamber.

Chairs were used by the attackers who were met with revolver shots. The audience stampeded and women were trampled. The fascisti were being overwhelmed when 40 gentlemen intervened and the fascisti fled in automobiles with their wounded.

Police estimated that 50 persons were injured. The riot started at a signal when an orator attacked the Mussolini regime, held accountable by anti-fascisti for Matteotti's murder.

The Italian members of the secretariat, named Rionetti and Pietro-marchi, were not held by police due to their diplomatic immunity, but they have been cited to appear as witnesses in an investigation.

RAINS WASH OUT 800 FEET TRACK

DELAYS SOUTHWEST LIMITED OF
THE MILWAUKEE
ROAD

Beloit, Wis., June 12.—(UP)—The Southwest Limited on the Chicago, Milwaukee & St. Paul road was nearly two hours late here this morning due to a washout of nearly 800 feet of track near Freeport by the heavy storm last night. Gravel trains were sent out from here in an effort to repair the track as soon as possible.

A cloudburst in the vicinity of Rockford caused two deaths in the bottoms of the Peconica river. The river is out of its banks and considerable property damage is reported today. Two inches of rain has fallen here since Thursday night.

BODY OF MAN FOUND FLOATING IN DULUTH BAY

Duluth, June 12.—(UP)—The body of an unidentified man, aged about 50 years, was found floating in the bay here today. Nothing about the body or clothing was found to aid in identification. Police are checking the records of missing persons.

dition would forecast a crop of 1,093,000 bushels.

"Milk production is hardly equal to that of one year ago due to poor pasturage. However, the milk production has not fallen sharply because dairy men evidently have fed their stock.

"Egg production shows a gain over last month.

ILLINOIS TO BE INVESTIGATED BY THE SENATE

SENATE PRIMARY INVESTIGAT-
ING COMMITTEE FINISHING
PENNSYLVANIA

MIDWEST STATE EXPENDITURES
SAID TO APPROACH A
HUGE TOTAL

By PAUL R. MALLON

(United Press Staff Correspondent)
Washington, June 12.—The senate primary investigating committee probably will wind up its probe of Pennsylvania politics the middle of next week and start at once on Illinois, Chairman Reed indicated today.

Confidential reports are understood to have come to the committee indicating the midwest state expenditures in its recent primary rivalled those in Pennsylvania where the committee also has revealed more than a million dollars spent for one candidate.

In view of these reports subpoenas for Illinois witnesses may be issued shortly.

Some additional witnesses also may be called Monday from Pennsylvania to clear up details of the sensational stories which already have been related to the committee concerning loose handling of large sums of money, somewhat unethical political deals and more than \$1,422,511 spent for three republican candidates in a portion of the state.

The stories were capped last night by a tale told by E. M. Kenna, Pittsburgh, treasurer for William S. Vire, successful wet candidate for the republican senatorial nomination, against the Mellon organization. He related how campaign officials had met with him in hotels and casually handed him over payments of \$15,000 and \$20,000 in cash at a time, in all about \$70,000. He did not put much of the money in a bank but confided it to a safety box in a Pittsburgh hotel, he said. There the workers went to draw out as much as \$27,000 in bills at a time to pay poll watchers.

The committee spent about \$110,216 for Vire in the city and handling of the money was recorded in a little black book but not until a considerable time after the primary when Edward R. Martin, secretary of the committee, wrote them all in to the record at the same time.

Martin said he knew what to put into the record from "scraps of paper" upon which he had made notes at the time he received and expended the money. The committee ordered him to bring the scraps of paper to Washington.

Martin and Kenna by their testimony brought the total expenditures now admitted by witnesses to \$1,422,511, divided as follows: Senator George Wharton Pepper, incumbent, \$1,046,295; Vire, \$181,216 (incomplete and may contain some duplications); Governor Gifford Pinchot, \$195,000.

WIND, RAIN AND ELECTRICAL STORMS RAGE IN CHICAGO

Chicago, June 12.—(UP)—Wind, rain and electrical storms centering around Chicago raged early today after more than 12 hours in which more than a score of persons were injured and huge property damages were suffered.

The storms reached their climax at Chicago with a half hour of electrical display, during which time 22 persons were hurt and 40 fire alarms were sounded. Some of the injured were struck by lightning bolts and stunned, others were hurt by falling debris from buildings that were hit by lightning bolts.

Two women and a man were trampled in a panic on a street car, when lightning hit the roof and set the car afire.

SOME RELIEF EXPECTED FROM HEAT WAVE

Omaha, Neb., June 12.—(UP)—Some relief was expected today from the intense heat wave which took two lives here and caused prostration of two other persons. A maximum temperature of 98 degrees was attained at 4 p. m., breaking the former 1926 record by three degrees.

2 GIRLS, 2 YALE STUDENTS KILLED, CAR HITS TREE

Gulfport, Conn., June 12.—(UP)—Two girls and two Yale students were killed in an automobile crash near here early today. The couples were returning to New Haven in a roadster, when the machine left the road, while going at high speed on a curve and crashed into a tree.

1,200 TROOPS N. D. GUARD AT DEVILS LAKE

SAY "HOWDY" TODAY TO MAJOR
THOMAS LONNE-
VIK

LATTER IS GRIZZLED VETERAN
OF MANY YEAR'S ARMY
SERVICE

Devils Lake, N. D., June 12.—(UP)—Twelve hundred troops of the 164th infantry of the North Dakota national guard said "Howdy" to Major Thomas Lonnevik.

And their greeting was tinged with respect. Major Lonnevik is a grizzled veteran of many years of regular army service. He has been custodian of the camp since 1902, but was connected with it before then, for in 1893, he cut the first trees to make way for the present parade ground.

But that is not Major Lonnevik's main distinction. He's chiefly noted as the man who taught the French how to grow potatoes during the world war. In 1918, the largest potato crop in the history of France was grown and Major Lonnevik was the man who was responsible for it. For that achievement he was decorated with the cross of the French Legion of Honor.

So the North Dakota national guard saluted Major Lonnevik as a distinguished officer today. The 1,200 men were members of units from all over the state, which are to be camped here for two weeks. Camp Grafton swarmed with activity as they prepared for their stay.

Two hundred of them, officers and men, welcomed the other 1,000. The 200 have been here receiving rifle training from regular army instructors. The 200 in turn have charge of training the national guardsmen.

The veterans of last year found many improvements at the camp. The new light and water plant was in operation. It has a storage capacity of 36,000 gallons and pumps water to all 15 mess halls, which also are newly constructed. The mess halls and the kitchens provide additional and better facilities for feeding the huge camp.

Thousands of persons are expected here Sunday, June 20, when the new buildings will be dedicated. The day also is governor's day and Gov. A. G. Sorlie will review the troops.

MYSTERIOUS MURDER AT IRON MOUNTAIN

Iron Mountain, Mich., June 12.—(UP)—Police today were making every effort to solve the mysterious murder of Maurice Finchetti, 45, who was killed here some time early today by an unknown assailant. Finchetti came here several weeks ago and had been working as a mason. It is said his life had been recently threatened by a man, who had been following him.

TRAIN STRUCK CAR DRIVEN BY A CRIPPLE

Oshkosh, Wis., June 12.—(UP)—An investigation was underway here today into the death of Miss Allebell Lammell, of Neenah, who was killed when the automobile, in which she was riding, was struck by a Soo Line train. She was a cripple and had a special contrivance on her automobile to enable her to operate it.

ENTERS PLEA OF NOT GUILTY

Minneapolis, June 12.—(UP)—A plea of not guilty to a charge of having sold \$1,700 in cancelled bonds to an Albert Lea woman was entered today by Edward F. Berkner, Sleepy Eye, Minn., banker. His trial was set for June 16.

LITURGICAL VESTMENTS ARE SOFTLY HIDDEN

PLACED IN GIANT VAULT TO
AWAIT OPENING OF CHURCH
CONGRESS

SOLEMN PROCESSIONAL TO BE
HELD DURING EUCHARISTIC
CONGRESS

By MAX BUCKINGHAM

(United Press Staff Correspondent)
Chicago, June 12.—Liturgical vestments that have been exposed to the sunlight of many centuries and the candle light of ancient cathedrals were softly folded away in a giant vault today to await their use by the princes of the churches in the International Eucharistic Congress, which opens here June 20.

The handsomely, delicately brocaded garments have been gathered together for the first time in the United States and will be worn only during the solemn processional around the Lake of St. Mary's at Mundelein, Ill., on the closing day of the congress. They will be viewed by at least 1,000,000 pilgrims along the line of March.

News that the papal legate, Cardinal Bonzano, and five other princes of the church landed yesterday in New York caused only a slight stir in the calm, apparently unhurried preparations to receive them in Chicago. There is no hustle or excitement in the way Chicago's Catholics are planning for the mammoth religious spectacle. Priests and laymen alike go quietly about their work, convinced that the greatest gathering of people in history will bring no confusion to the dignity of the church.

Only among the busy managers of transportation is there any evidence of concern. These men are faced with the task of transporting 1,000,000 people by train and by automobile from Chicago to the beautiful grounds of the seminary at Mundelein where the congress is to close June 24. It is the most difficult transportation problem ever faced on any continent and far exceeds even the preparations that were necessary at the coronation of King Edward VIII of England, an event heretofore considered the most difficult to handle.

Foreign delegations already are beginning to arrive in Chicago and the city is fast taking on its most cosmopolitan aspect. Clerics and laymen from central Europe were on the grounds at Mundelein yesterday, inspecting the magnificent landscape gardening that has been prepared especially for the congress.

Cardinal Bonzano is expected to reach Chicago on a special train from New York next Thursday and his arrival will mark the beginning of the program although the congress does not open officially until three days later. A monster reception has been planned for Cardinal Bonzano, the highest ranking authority of the Catholic church ever to tread American soil.

FOUR KILLED IN AUTO MISHAPS AT ALTOONA

Altoona, Pa., June 12.—(UP)—Four persons were killed in automobile accidents today while en route to the Altoona speedway for the 250-mile automobile races.

Charles Sauters, 24, of Pittsburgh, Pa., was killed in a crash near Williamsburg.

Three young men from Towanda, Pa., members of a party of five, were killed when their car failed to negotiate a turn on "dead man's curve," about 15 miles east of Bellefonte.

DR. W. S. CONKLIN DIES AFTER AN ILLNESS OF YEAR

Des Moines, Ia., June 12.—(UP)—After nearly a year of illness, Dr. Wilbur S. Conklin, surgeon general of national guard forces in Iowa, Minnesota and Nebraska, died last night.

Death was due to pleurisy aggravated by exposure to gas during the world war.

Dr. Conklin possessed an enviable war record, having participated in the Champagne, St. Mihiel, Marne, and Argonne campaigns.

Pink roses and ferns were used in the decorative scheme and covers were laid for 28. Miss Harding was the recipient of many beautiful gifts.

Joint Picnic
The First Methodist Episcopal Sunday school, church, and ladies aid will hold a joint picnic at Lum Park on Thursday, June the 17th. There will be a full program of games, sports and contests starting at two o'clock. The supper hour will be at six o'clock when all will enjoy a picnic lunch. At seven o'clock there will be a ball game between the single and married men. The picnic will close at 8:30 o'clock with a brief religious service on the shore of Rice Lake led by Rev. Everez. The program in full will be given next week.

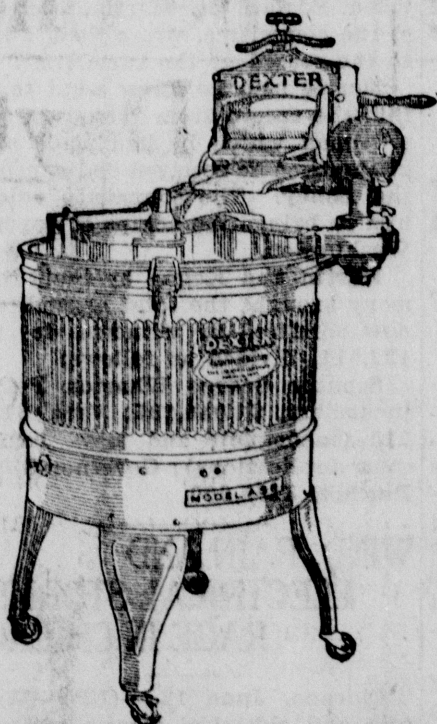

FOR MISS LILA DEED

Young Peoples Department Methodist Church Gives Party for Her at Gull Lake

The Young Peoples Department of the M. E. church held a social gathering last evening at the Fitzsimmons cottage on Gull lake in honor of Miss Lila Reed who is shortly to leave for Iowa.

There were 20 young people in attendance. Swimming and outdoor games were enjoyed followed by a lunch. The Young Peoples Department will hold another social gathering Sunday afternoon and evening at the Senn Cottage at Merrifield.

DEXTER Model A-5-E

IT will whisk your washing through so quickly and easily—with every piece so fresh, clean and white—that you will wonder how you were ever content to get along without it.

Its efficient agitation cuts the washing time for each lot of clothes from the usual 10 or 15 minutes to five minutes or less—yet it handles the clothes so gently that it will wash your daintiest pieces without a possibility of injury.

The A-5-E is a large capacity washer, but compactly built, requiring small floor space. Its swinging wringer locks in any working position, carrying the clothes forward from one operation to another with the least possible effort on the part of the operator.

You will be surprised to learn how little it costs you to own this exceptional washer; come in and let us tell you more about it.

PINE SHORES IS ATTRACTIVE

Lakeshore Subdivision Near Brainerd Gains Many Inquiries

COTTAGES, CABINS BUILDING

Aim of Realtors is to Gain Colony of Summer Home Builders

The Staring Company of Minneapolis, realtors handling the sale of "Pine Shores" near Brainerd, now have two salesmen stationed at Brainerd. Offices are maintained in the lobby of the Ransford hotel. G. L. Larson has created considerable interest in the new lakeshore subdivision and this week has been joined by Finlay D. Cameron of Minneapolis.

Inquiries have been numerous and many prospects have been taken to the property to view same and make lot selections. "Our aim," said Mr. Cameron, "is to interest the class of people who wish to have a summer home at the lake and who will build cottages as soon as they acquire sites."

As the colony increases in size, it will add to the trade area of Brainerd, for all the residents of Pine Shores will buy their supplies, building material, etc., at Brainerd, the nearest point.

Pine Shores is located on Sunniss Bay, Rice Lake, Heel Strait and Cranberry Bay. The promontory resembles Cape Cod jutting into the Atlantic. The irregular shore line adds to the beauty of the subdivision.

With a boom predicted on lake shore property at Pine Shores many citizens are considering the proposition of investing their money in lots. Brainerd citizens have been given the privilege of first choice with the result that the lots will soon be "snapped up."

Pine Shores controls miles of picturesque, irregular shoreline on two fine, deepwater lakes with permanent water level, a highly important feature to consider in the selection of a site for a lake home.

The convenience of travel to the cities will surely be a big attraction to city buyers when they become interested.

G. L. Larson and Finlay D. Cameron, salesmen invite those interested in Pine Shores to visit the lots at any time.

FASHIONS

By HEDDA HOYT

New York, June 12.—(UP)—Parisians, at present, are favoring sports frocks with contrasting skirts and jumpers or jackets. Blazers, jumpers and jackets of navy blue worn with skirts of white or nude shades are familiar sights at French resorts. Brass buttons are a favorite trim for the blue jacket.

Tan and putty shades are replacing the bois de rose tones in Paris. Shoes, costumes, hats, handbags and hosiery of blond beige or tan shades are extremely popular with the smart Frenchwoman. Among the more brilliant colors are entire costumes of bright Chanel red.

Amber-dyed ermine is the new fur in Paris. Sun-burnt ermine of previous seasons is replaced by this deeper golden shade. Usually amber ermine is used on a cloth coat of the same shade. Occasionally one sees an entire wrap of this color with a matching collar of amber fox.

Raffia parasols printed or woven

Varicose Veins Reduced or Money Back Say All Druggists

Simple Home Treatment That is Giving Amazing Results

The world progresses. Today ailments that took weeks to cure can now be ended in a few days. If you have varicose veins or bunions you can start today to bring them back to normal size, and if you are wise you will do so.

Just get an original bottle of Moone's Emerald Oil at any dispensing pharmacist and apply it night and morning to the enlarged veins. It is very powerful and penetrating, and only a little is required.

After a few days' treatment the veins will begin to grow smaller and by regular use will soon reduce to normal.

Moone's Emerald Oil is also a marvelous healing agent. One application for instance stops the itching of eczema, and a few applications cause the eruptions to dry up, scale off and completely disappear. It is equally as effective in barber's itch, salt rheum, redness and inflammatory skin trouble.

People who want to reduce varicose veins, or get rid of eczema, ulcers, or piles in a few days should not hesitate to get a bottle at once. It is so powerful that a small bottle lasts a long time. Any pharmacy can supply you. All druggists sell lots of it.

—Adv.

Scene from "WHERE WAS I?" Starring REGINALD DENNY

Expensive Wreckage Is Grim Evidence of the High Cost of Laughing

There is a world of real humor in "Where Was I?" starring Reginald Denny, which is coming to the Lyceum theatre Sunday and Monday.

In colors are designed to accompany the new raffia straw shoes. Some of these, imports from Paris, are selling as low as \$7.50. Usually the background is in the natural straw shade with the colors forming the design and border.

Unlike the American, the Parisian woman does not insist upon tan suede gloves. Instead, she harmonizes her glove with her costume. At present the short black glaze glove is the favorite one worn with the dark costume. White gloves have not been entirely discarded in Paris as they have in the United States. If Madame's costume has white trimming, her gloves may be white as well as black or tan. Certainly she would not select a tan glove with a black and white outfit as we have seen many Americans do.

Four Stars Appear in "The Runaway"

When a girl runs away from home—that's bad. But when she leaves a hotel apartment after a man has been shot, and heads for the hills—that's a whole lot worse. Yet that is what Cynthia Meade, the heroine of Charles Neville Buck's novel, "The Flight to the Hills," did.

The story has been transferred to the screen, and the title changed. Clara Bow, Warner Baxter, William Powell and George Bancroft are featured. "The Runaway" arrived at the Lyceum theatre today.

Everything Comes to Him Who Waits

Everything comes to him who

There is also an unusual story with wonderful opportunities for the manufacturing of laughs. William Seiter, director, has turned out a finished product, according to those who have seen this riotous Lyceum theatre Sunday and Monday.

wait, is an old saying and brings the thought to bear on the present theatrical season at Brainerd, which we are informed is the great big musical comedy, "Shufflin' Sam From Alabam", which comes to New Park theatre on Friday night, June 18th.

This company comes highly endorsed by Press and Public as the fastest stepping colored success of the season. A company of 35 people, headed by the Nay Brothers, ably supported by the leading colored talent of the latest musical reviews.

"Shufflin' Sam From Alabam" is elaborately staged and beautifully costumed with a creole beauty chorus and Memphis Blue Demon Jazz orchestra, Jazz Blues and Syncopation predominate.

A special engaged feature that is being offered with "Shufflin' Sam From Alabam" is the Charleston steppers, who will present the very latest dance craze, which is in itself an attraction that is a marvelous piece of footwork.

Frank Kirk, the musical tramp, will be seen in his famous musical act which has no equal.

Virginia Liston, the popular and famous record star, will sing "Blue" numbers.

Of Saxon Derivation

The word "barn" is derived from the Saxon "berern," from "bere," barley, and "ern," a close place or repository, and originally denoted a building for the storing of grain.

HEAVY EXPENSE FIGHTING FIRES

Already Amounts to Three Times as Much as Spent Entire Year of 1925

\$3,429.52 FOR WAGES

For Last Year the Whole Wage Bill Only Amounted to \$951.71

Expenses incurred in salary of fire fighters other than the regular staff in the forestry department this year already has amounted to more than three times as much as the entire year last year.

The sum of \$3,429.52 has already been spent in wages for fire fighters in this district alone for this year. For the entire year last year the sum of \$951.71 was spent.

So far this year, and the fire season is not yet at an end, there has been over 250 fires reported. There were 114 fires reported last year.

Story of America

The first account of the new world in Spanish, the "Suma de Geografia"—Complete Geography—was published in Spain in 1519. Its author was Martin Fernandez de Encisco, who went to America with Bastidas in 1500.

Plant Most Affected

A scientist has discovered that plants grow better if the day is prolonged with artificial light. Further investigations prove that the plant which profits most from this treatment is the electric light plant.—World-Wide.

Old Religious Sect

River Brethren is the name of a religious denomination of Mennonite origin, founded in 1770 in Pennsylvania by Jacob Engle, the name coming either from the fact of its members living near the river or from their performing the act of baptism in the Susquehanna river.

Well Meant

Little Mary was nothing if not polite. She had heard that the minister was leaving the church for a new pastorate. Her mother had the minister to dinner shortly before he left, and Mary, carefully waiting for a pause in the conversation, remarked: "I hear we are going to have the pleasure of losing you."—Argonaut.

ORIENTAL RUGS

From the Enormous Stocks of
The Dayton Company,
Minneapolis

The Northern Home Furnishing Company believes in giving Brainerd a progressive, up-to-date homefurnishing establishment, and to substantiate our belief, we are presenting this fine collection of Oriental Rugs in the newest patterns and colorings—in recognized grades—and in a comprehensive size range.

We are prepared to go beyond the possibilities of this particular selection, having made arrangements with the Dayton Company, to supply, overnight, any size or grade you might not find here.

These Rugs Are From One of the Country's Big Oriental Rug Stocks

There are only a few stocks of Rugs in the entire country that compare with that of the Dayton Company in size—there is none that surpasses it in reputation—and with each Rug goes the reputation of the Dayton Company for quality.

A Dayton Representative will take orders for the cleaning and repairing of Oriental Rugs by native Orientals—expertly done.

NORTHERN
HOME FURNISHING CO. INC.

WE have also arranged for an extension of Dayton's Extended Payment Plan for the convenience of those who may wish to budget payments over 6, 12 or 18 months.

SATURDAY, JUNE 12, 1926

MINNESOTA'S CRIME COMMISSION

MINNESOTA is waging its war on crime in earnest. The state crime commission has made headway in its study of the situation and additional important steps are to be taken. Minnesota is fortunate in its freedom from crime, but state authorities sense the need for vigilance to convert a possible increase in the number of criminals into a decrease.

In accordance with this view, one of the first bills on the calendar when the Minnesota legislature meets next January will be one to make Governor Theodore C. W. Johnson's crime commission, formed last spring, a permanent body. A local member on this commission, serving on an important committee of judiciary, is Judge W. S. McClenahan.

Members of the crime commission feel it should continue its investigations and make recommendations for the suppression and control of crime to subsequent legislatures.

The paroles and pardons sub-committee, of the crime commission, in order to become more fully acquainted with the workings of the state parole board, will meet with that body at its next meeting and will then hold a joint session to determine what changes are necessary to strengthen the board. Arrangements for this have been made with C. J. Swendsen, parole board chairman. Judge Oscar Hallam, chairman of the commission, will also attend the hearings.

Justin Miller, executive secretary of the commission and professor of criminal law at the University of Minnesota, who recently resigned to accept the chair in criminal law at the University of Lower California, made a detailed report prior to his resignation on the accomplishments of the commission since it was appointed last January.

Miller suggested that the commission get reports from similar bodies throughout the country. He reviewed work being done in the field of criminal procedure, suggested a special commission to investigate whether present criminal law adequately defines crimes, provides penalties adequate to deter men from committing crimes, and the development of new methods of administration and responsibility for the suggestion of changes in the criminal laws.

Meanwhile the commission has taken steps to co-operate with the national crime commission and with similar bodies in other states and cities. These include organizations in Chicago, Cleveland, Baltimore, Kansas City and all unofficial commissions in New York, Massachusetts, California, Michigan, New Jersey and New Hampshire.

The commission does not plan to meet again until fall, but the various sub-committees will continue to work on the different lines of investigation assigned to them.

UNETHICAL IN A WAY

THE doctors of the United States have their code of ethics. doctors as well as surgeons. We believe it highly unprofessional on the part of a surgeon to comment about the appearance of a patient.

Witness, for instance, the story we got over United Press wires yesterday, reading: "Helen Wills of Berkeley, California, is the finest specimen of girlhood ever seen by Dr. Thierry de Martell, the greatest surgeon in France, who operated upon the American tennis champion for appendicitis only six days ago."

It is proper to comment on the state of health, but for a surgeon to reveal the physical perfection of form of his patient may be gallant in France but we would hardly consider it professional etiquette in this country.

How would you like to be operated on by a Frenchman and have him tell the world that you had fallen arches, or knock knees, or bowlegs, or a poor waist line and sagging shoulders, all revealed when nature had no assistance in the way of arch supporters, pads and other accessories. If the surgeon may grow eloquent and reveal the patient's good points, he may also, on a day when he is grouchy, tell of the inferior points of some patient.

We think that French surgeon, according to version given by the newspaper correspondent, has spilled the beans so far as etiquette is concerned in America. It is, however, nothing new to know that Helen Wills is a perfect specimen of girlhood, for no girl can play tennis as she does without having a perfect body and matchless brains.

THE BOBBED HAIR VOTE

MANY a politician is glad to win an election by a close shave. Not so, however, one John Knutsen, a tailor of St. Cloud, who is a perennial candidate for congress from the sixth district in opposition to Harold Knutsen, republican incumbent.

Knutsen, the tailor, makes the assertion that if he can secure the support of all the bob haired voters, he will be elected. Maybe so, maybe so. Women will be a unit regarding hair dressing, but they have individual opinions regarding politics. About the only furor Knutsen, the St. Cloud tailor causes, is to make some people study election matters more closely in order to vote for the right candidate.

LOVES GAME OF POLITICS

SOME people are in politics for the money to be made, others play the game as a diversion, while others seek the honors which attach to various positions. With Carl Taylor of Bone, Aitkin county, politics is a matter of real pleasure and diversion.

He is a candidate for congress and takes real delight in meeting people and discussing things economic, political and otherwise. He is philosophical too. If he loses, he says, there will be no bad feeling. A quarter of a century or more in the dim past Taylor was a candidate for congress, wasn't elected, and is just as optimistic about his chances now as he was then.

CONKIN, the auctioneer, is putting on a lake lot sale on Round lake near Mille Lacs lake and is absorbing some of the Florida spirit. He has two bands engaged to furnish music, the Brainerd Ladies band and the Boys band. Now if he will throw in free transportation, sandwiches and lemonade he will have the Florida idea thoroughly duplicated.

ONE thing to commend this permanent wave idea, said an observant husband, is that Friend Wife quits tossing in her sleep so as to save her wave from being pressed out of shape.

BRAINERD

25 YEARS AGO

From the Daily Dispatch

Wednesday, June 12, 1901

Lynch brothers have just completed a bridge across Gull River, section 4 township 133, range 29, which shortens the road from Home Brook to Brainerd ten miles and will divert the travel and trade of the people of that section to this city.

Among those who contributed toward the expense were J. M. Hayer, Albert Angel, Con O'Brien, Koop Bros., D. M. Clark, and Shipp Bros. Up to date five hundred tags have been put out by Bicycle Inspector R. D. King. This exhausts the first supply of tags and he has had to order more.

Chief Engineer E. H. Henry and Assistant Engineer W. L. Darling of the Northern Pacific and Superintendent Gen. M. of the Minnesota and International Railway returned last night from an inspection trip over the line.

Twelve miles and a half of the road has been graded and is now ready to be turned over to the oper-

ating department. The local office is selling tickets to Mississippi and Turtle, two new towns on the line.

Curbside Chat

Mayor Husted: "You might state that the business men better hurry up and number their places of business, nearly all the resident portion of the city has been numbered, the merchants being the only ones lacking, and unless they attend to this the chief of police will call on them in a few days to make the request."

Tomorrow will be a big day at Camp Holland, Gov. S. R. Van Sant has been requested by the boys to be present and he sent word last night that he would come and be at Camp tomorrow. * * * It is probable that a parade will be given through the principal streets of the city on this account and in the evening of course the soldiers will pass in review of Minnesota's executive, Col. Johnson.

is very anxious that there be a good attendance at the dress parade tomorrow night. * * * The time this morning was consumed in battalion drill by those who were not taking part in the target shooting. * * * Company C Duluth returned from St. Paul this afternoon and tomorrow night the grand military historical exhibition will be given at the driving park. * * * All Brainerdites take a keen pride in their

company (company F) and this is as it should be for the boys are a credit to the city. To the untiring efforts of the company and Captain S. R. Adair, in particular, Brainerd owes in a great degree an obligation for their valor and interest. Captain S. R. Adair is in command of the company now at Camp Holland and the other officers are First Lieutenant Wm. Nelson, Second Lieutenant C. A. Wilkins. The sergeants in order are O. A. Peterson, James Towers, C. A. Allbright, and W. E. De Lemere. The corporals in order are: O. R. Fox, Ray Guthrie, John Siebert, Wm. McCarthy and Wm. Daugherty.

Original Lifeboat

The lifeboat was invented in 1784 by Lionel Lukin of Dunmow, England, a landlubber who had always lived away from the sea. These boats are now made of corrugated iron. The first one contained side air chambers, then cork was substituted, and the keel was curved.

Marrying in England

Under the law of England a man may marry his son's mother-in-law or his deceased wife's sister; but he can marry neither his aunt by marriage nor his niece by marriage, let alone his wife's mother.

Found Traces of Old Race

Katsimo, the celebrated mesa or table rock in New Mexico, rising about 430 feet above the basin of the Acoma, was first sealed in 1897 and traces of a former occupation were found on it.

Important Exception

"The way to rise is to stick to a thing," asserts a writer, but there are exceptions to every rule. Our correspondent might find it difficult to rise if he stuck to a freshly painted garden seat.

ADVERTISEMENT—Inserted by and for L. W. Tyrell, for which regular rates will be paid.

L. W. TYRELL

I wish to announce that I will be a candidate at the primary election to be held June 21st, 1926, for the office of County Commissioner for the fourth commissioners' district of Crow Wing county, Minn.

I have been a resident and tax-payer of the county for over 25 years and have always been much interested in county matters.

I am not at present employed by any one, nor drawing pay from any individual, company or corporation. There is nothing I know of to prevent my giving my entire time to the performance of the duties of the office, should you see fit to nominate and elect me to it.

Your support is asked for and will be greatly appreciated.

Yours for business,
L. W. TYRELL

Oratorical Illusion

After the great orator expounds a truth for fifty-two minutes he says it goes without saying.

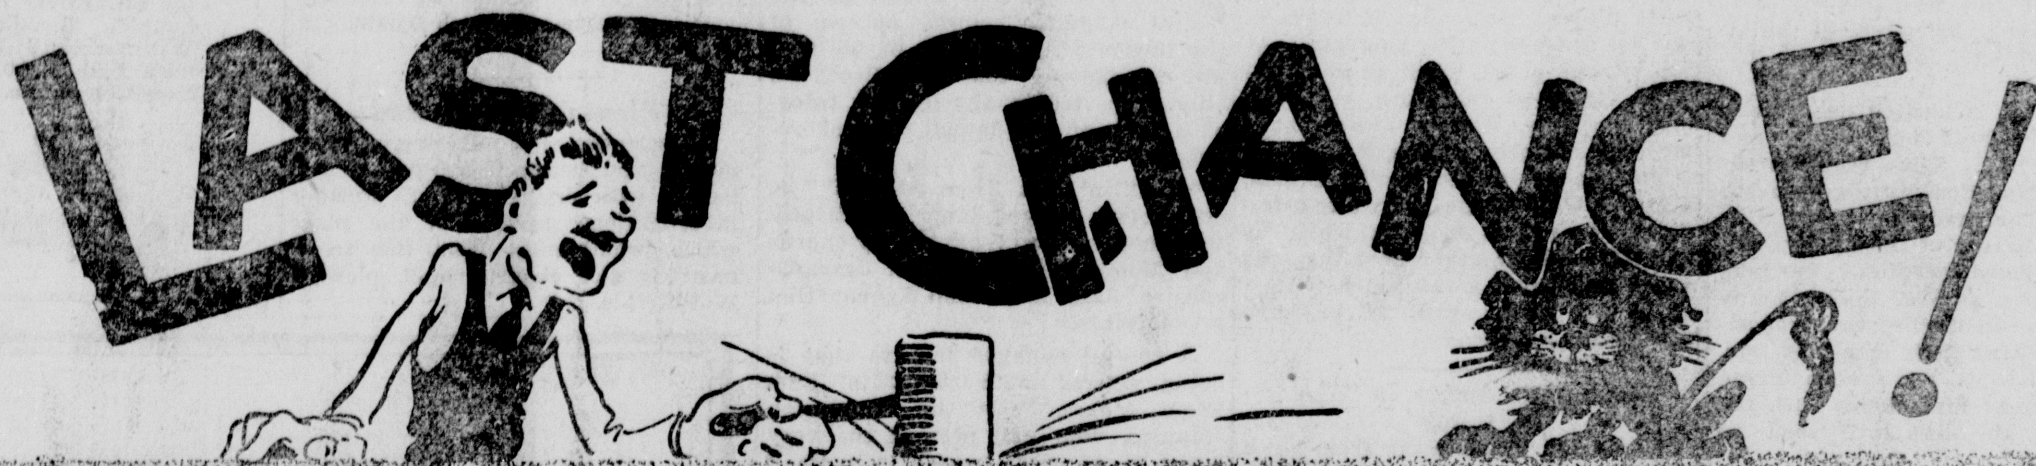

Alas, No!

A London dentist is said to sing when drawing teeth. No extractions are really painless.

PUPILS LEARN BY UNIQUE METHOD

"Text books are fine as far as they go," says F. L. Watkins, Pres., Dakota Business College, Fargo, "but they don't go far enough." Mr. Watkins maintains that students should get experience at school. D. B. C. pupils obtain actual business training (copyrighted—can't be had elsewhere.) They begin work as experienced help. Recently, C. R. Bystrom was sent to a fine position with the Bank of Pekin, the very day he graduated.

Watch each week. "Follow the Successful" Summer School Monday. Write F. L. Watkins, Pres., 506 Front St., Fargo.

DR. ROY SMITH'S SATURDAY NIGHT TALKS

By the REV. ROY L. SMITH, D. D.
Pastor Simpson M. E. Church, Minneapolis

GOLDEN EGGS AND OTHER GESE

The Society for the Promotion of Atheism has announced that it proposes to organize a society of atheists among the students of every college in America.

This sounds a good deal like killing the goose that laid the golden eggs. Without the Christian church America would have no educational system worth the name and no colleges in which to organize atheist societies.

Yale university was organized by 10 ministers in 1701. Harvard university was organized by the Colony of Massachusetts Bay as a church school and was given the name "Harvard" in recognition of John Harvard, a young clergyman who died, bequeathing the sum of nearly four thousand dollars and a library of three hundred volumes.

Hamline university, the first college in Minnesota, was organized by the Methodists and the University of Minnesota was first organized by missionaries and later, under the leadership of ministers, was taken over by the state. The University of Kansas was organized by the Episcopalians and Presbyterians and later became a state school. The State Agricultural College of Kansas began as a Methodist school.

Nineteen of the first twenty-two superintendents of public instruction in Kentucky were ministers of the gospel. The Episcopal church organized the state educational system of Florida. Wisconsin had no normal colleges for the training of teachers outside of denominational schools until long after the Civil war and the history of almost every other state is quite similar.

Peter Cartwright, the eccentric backwoods Methodist preacher of Illinois, introduced the bill into the state legislature which provided for the establishment of the University of Illinois and several preachers were on the first board of directors. Chicago university, one of the greatest schools in the world, was founded by the Baptists.

Among the earliest pioneers of every state were the missionaries and priests who preached the gospel, buried the dead and built churches and colleges. In almost every state in the Union the first educational institution of college grade was organized by some church or religious society.

More young men and women have been helped through college by the churches than by any other means except public taxation.
If atheism had been successful in 1776 there would be almost no colleges in America, now, in which to organize student societies of atheists, for atheism can lay claim to having inspired the founding of but one college in all of America, Girard college of Philadelphia.

HOME, DAD AND THE BOY

By FRANK H. CHELEY

The Alibi Dad

HIS stock excuse is "too busy." He is a good friendly fellow, but he never delivers. His intentions are good, but his self-starter is out of fix.

He fully intends to pay with his boy, but his middle name is "As-soon-as-I-can-get-to-it."

He always finds himself engulfed in an emergency and so begs off with the kid until a later time.

He belongs to forty-nine committees for the deaf, dumb and blind; serves on the Board of Directors of the Orphans' Home; but his own boy gets his inspiration and man-contact with a "total stranger."

There is one committee he falls on utterly—the committee of one to give his own boy a square deal.

He is the Dad who
"Could tear down the world
And build it up new,
If he did half the things
He intended to do."

He is High Past Master at the Good Intentions Association.
"Mother, tell me a funny story, please."
"Wait, son, your father will be home by and by and he will tell us both one."
Father was the Chief Alibi!

Frank H. Cheley, Denver, Colo.

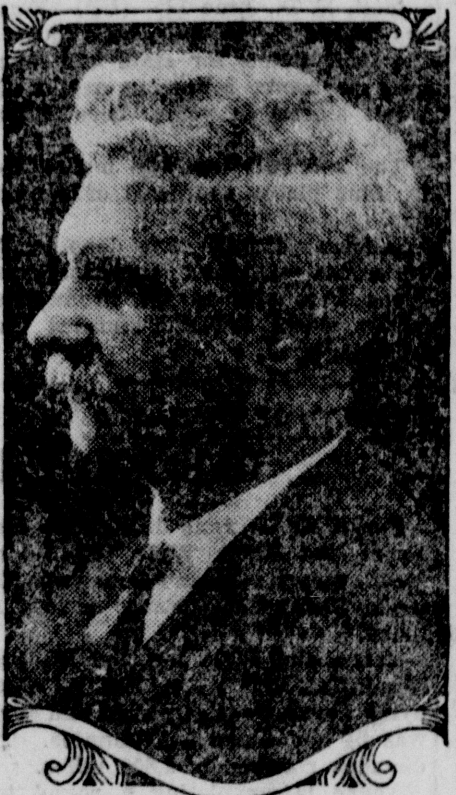

LUTHERANS OF ALL PARTS OF WORLD CONVE

Triennial Convention of Synod to Be Held at St. Louis
June 9 to 19.

NEW THREE MILLION DOLLAR SEMINARY TO BE DEDICATED

Missouri Synod Organized in 1847 by Twelve Congregations Now Numbers More Than Three Thousand Churches.

Over one thousand accredited delegates from all parts of the world and many thousands of visitors are expected to gather at St. Louis for the international triennial convention of the Evangelical Lutheran Synod of Missouri, Ohio and other states to be held from the 9th to the 19th of June. This convention is arousing the interest of Lutherans all over the country, since it will mark the dedication of the largest Protestant theological seminary in the world. The combination of the general convention and the dedicatory exercises at Concordia Seminary will bring thousands of Lutherans from various parts of the United States, South America and Canada to St. Louis. The Lutherans

REV. F. PFOTENBAUER, D.D.

of the Missouri metropolis are making extensive preparations to entertain the host of visitors and to provide facilities for the work of the numerous committees.

The St. Louis convention will be called to order by the President, the Rev. Dr. F. Pfotenbauer of Chicago, who in the management of the convention sessions will be assisted by the Vice Presidents, the Rev. J. W. Miller of Fort Wayne, Ind.; the Rev. G. A. Bernthal of San Francisco, Cal.; the Rev. F. Brand of St. Louis, Mo.; the Rev. H. P. Eckhardt of Pittsburgh, Pa. Aside from the regular business affairs which will occupy Synod's attention, the convention will no doubt feel called upon in view of the pronounced so-called modernistic tendencies on the field of religion, to reaffirm its unwavering position as to the inspiration of the Bible, the dependability of the Scriptural account of Creation as opposed to the theories of evolution, the deity of Jesus Christ, in fact, the old Gospel position which has always characterized this body of the Lutheran church.

Separation of Church and State

The convention will restate its position regarding the relationship of church and state, standing out for an absolute separation of these two distinct bodies and deploring the tendency to subvert in various circles this fundamental principle on which our government is founded. The leaders of the Synod assert that no resolutions on "Peace" will be presented, claiming that the Bible plainly outlines the duties of citizenship also in time of war and that much of the present day agitation which would forbid the Christian to serve his country in times of war is misguided and unscriptural. The convention will devote itself strictly to questions fitting into the sphere of the church and will carefully refrain from any statements on public questions designed to influence legislation. Its leaders maintain that the sphere of the distinctively religious opportunities and responsibilities of the church is so vast that there is no time left for discussions pertaining to extraneous matters and that the Lutheran church as a matter of principle refuses to be embroiled in affairs that lie outside of the spiritual realm of the church. In the field of religion the convention will reiterate the expression of its conviction that the crying need of the country and the solution of the various social problems that are vexing the public mind lie in the steady proclamation of the Gospel principles as laid down in Holy Writ.

The speakers at the dedication ceremonies at Concordia Seminary are ex-

pected to recall the chief events in the history of the Missouri Synod, which dates back to 1838, when a group of 750 Saxon emigrants left their homeland to find in America the freedom of conscience and worship which was being denied them in their own country. The early struggles of these immigrants in their settlement of Perry county, Mo., the disappointments and hardships they were compelled to endure, form one of the most interesting chapters in American church history. The settlers had intelligent, aggressive and far-sighted leaders, among whom Dr. C. F. W. Walther soon became an outstanding figure and for a generation or more as preacher, professor and editor, was instrumental more than any other in moulding the scattered Lutheran forces into a cohesive organization, which adopted the name of the Evangelical Lutheran Synod of Missouri, Ohio and Other States. This body was organized by twenty-three pastors and twelve congregations at Chicago in 1847, and in a short time became a powerful force in the propagation of conservative, militant Lutheranism in this country. From the beginning the Missouri Synod has been known for its rigid doctrinal position and its firm insistence on the authority of the Bible in all matters of faith and conduct. Its growth in this country has been extremely rapid. It now numbers 2,678 pastors, 3,497 congregations, with 655,671 communicant members. In its organizational principles and polity the Synod is strictly democratic. All offices are elective, and the convention is constituted of delegates elected by various congregational groups. The supreme authority of the congregation and the rights and privileges of the individual in the congregation are strictly preserved.

The St. Louis convention plans to inaugurate an intensified campaign on the field of Home Missions. There is doctrinal unanimity among the Lutheran clergy, and the church has remained comparatively free from the modernistic tendencies which have proven disruptive in other organizations. Aggressive mission work, having in view the vast unchurched element in the United States, will be planned. The leaders of the church claim that the best way to combat the rationalistic tendencies which they say are undermining the influence of Protestantism in the United States and perverting the church into a mere social agency for moral uplift, is to proclaim aggressively the old Bible tenets.

READ THE WANT ADS DAILY

United States Mints

Paper money is printed at the plant of the United States bureau of engraving and printing, Washington, while most of the coins are turned out at the mint in Philadelphia. There are smaller mints in San Francisco and Denver. Coins have been minted elsewhere, at other times. There were formerly mints in New Orleans, Carson City, Nev., and Dahlonega, Ga., but these are now closed.

Hardwoods for Finish

Those hardwoods most commonly used for standing finish are oak, birch and gum; for floors, oak, maple, birch, beech and sometimes tupelo are used. Cypress, walnut, sycamore and chestnut are a few of the other domestic woods used for finishing.

Crop Rotation

The folly of growing the same crop on the same land for several successive years was noted by the Romans, but the attention was first called to the value of crop rotations in 1777 in a treatise by Dickson of Edinburgh, Scotland.

Here are the real engineering reasons

Low gravity center
High torque motor
and Unit-design

only these 3 combined can give such amazing performance

THE Overland Six is not just a modern body on a chassis that's 5 or 10 years old. But a new and revolutionary type of car, modernly engineered and designed as a unit to give a new kind of performance, comfort and driving ease.

The motor is a new-type "high-torque" power plant—hung low in the chassis to give a straight line drive—with more usable power delivered to the rear axle than you find in other sizes of its price or class.

The center of gravity is lower—keeping the weight of the car down

close to the ground—you get an entirely new feeling of security when you drive this car.

Only these 3 factors combined can give you such amazing power, speed and pick-up. Won't you come in and let us demonstrate the remarkable performance of this new-type Overland Six?

LENGLEN DEFEATS BROWNE IN FIRST SET

FRENCH GIRLS' PLACEMENTS ARE BAFFLING ONES

Mlle. Lenglen Resumes Dashing Attack in Second Set

Wins 6 Games Straight and Clinches the Title

Paris, June 12.—(UP)—Suzanne Lenglen defeated Mary K. Browne of California 6-1 in the first set of their match for the women's hard courts championship today.

Mlle. Lenglen took the first game four points to two and Miss Browne won the second on her service. Mlle. Lenglen took the others.

Mlle. Lenglen won the first game in the first set, 4 to 2. Miss Browne took the second game on service, her lone game of the match. Suzanne took the third game, careful placements giving her a decided edge over the American player.

The fourth game found Miss Browne playing her service strongly and the game went to deuce twice, before Lenglen won with a succession of clever placements.

Rain which had been falling intermittently for 48 hours, drenching the courts, was coming down steadily by the fifth game, the French girl's placements, despite the condition of the court, completely baffling the American contender.

The sixth game found Miss Browne remaining on the base line harassed by Lenglen's drives to the corners. This game went to the French girl, 4-1.

In the seventh game the American scored a beautiful placement shot and won an ovation from the crowd who braved the weather to see the match, but could get but two points and Suzanne ran out the game and set.

The point score on the set: Mlle. Lenglen434 844 4—31 Miss Browne252 601 2—18

The French girl resumed her dashing attack with the opening of play in the second set and won six games straight to clinch the title.

In the concluding game, however, the American staged a great rally and fought desperately to capture at least one game in this set. Five times she carried Suzanne to deuce, Suzanne making several unusual errors. The French girl, however, got the match point with a superb placement shot winning the game 10-8 and the set by a love score.

The point score of the second set follows: Mlle. Lenglen444 44 10—30 Miss Browne221 20 8—15

KUHNSTADTER HEAVY FAVORITE TO WIN TITLE

Lake Forest, Ill., June 12.—(UP)—Heavy greens and fairways and overcast skies today greeted golfers of the Big Ten conference over the Knoll-wood course.

Ralph Kuhnstadter of Illinois, by virtue of his medal card of 159 yesterday was a heavy favorite to win the title. Kenneth Hiser of Chicago, defending champion, and Connor of Michigan, turned in cards of 161 last evening, however, and are in a position to threaten Kuhnstadter's lead.

The team championship of the Big Ten was won by the University of Chicago quartet which turned in a total score of 659. Illinois was second with 662; Northwestern third with 681; Michigan fourth with 683; Wisconsin fifth with 725, and Ohio State sixth with 742. The other Big Ten schools were not represented by full teams.

ALTOONA SPEEDWAY RACE THIS AFTERNOON

Altoona, Pa., June 12.—(UP)—While two airplanes performed stunts overhead the big wooden bowl of the Altoona speedway was slowly being filled this afternoon for the 250 mile race which begins at 2:30 p. m. eastern standard time.

Pete De Paolo, who made 128.6 miles an hour in the qualifying lap and Frank Elliott who registered 126.4 miles are the favorites.

The Altoona record made by Earl Cooper in the Labor day race last year, averaging 114.8 miles an hour for the 500 mile grind, probably will be shattered today.

MIKE COLLINS ORDERED RELEASED

Omaha, Neb., June 12.—(UP)—Mike Collins, Minneapolis boxing promoter, arrested Thursday on a warrant issued by Red Wing, Minn., authorities, charging forgery, was released late Friday, after Minnesota authorities discovered that Collins was a victim of mistaken identity. Collins has not been in Red Wing in 25 years, he declared.

AMERICAN SPORT INVASION OF ENGLAND NOW ON

New York, June 12.—(UP)—The American sport invasion of England this summer enrolled two more candidates today when Charles F. Chapman and Howard W. Lyon, veteran speed boat racers, sailed aboard the Leviathan for London, where they will compete for the Duke of York trophy on June 25.

Chapman will drive a 1½ liters boat, owned by Carl G. Fisher of Miami and New York, and Lyon will pilot the entrant of D. P. Davis, Tampa sportsman.

The 18 feet speedsters with which the Americans hope to capture the trophy have made 50 miles an hour in practice runs on Long Island Sound and that is 10 miles an hour better than the speed attained by the winner of the trophy last year.

This is the first time any American made boat has competed in England.

SPANISH CHAMPION DEFEATS AMERICAN, MOLLA MALLORY

London, June 12.—(UP)—Senorita De Alvarez, the Spanish champion, today at Breckenham, won the Kent county tennis championship by defeating Molla Mallory of the United States, 6-4, 6-2.

Man Must Assist

Corner a doctor and he will admit that nature does most of the healing, but he is likely to add that a river never produced an electric current until an engineer took a hand in the matter.

BRAINERD READY FOR GAME WITH NEW YORK MILLS

VISITORS OUT TO GAIN SEVENTH VICTORY OF SEASON TOMORROW

REPOLA AND ZAKARIASEN ARE IN FINE FETTER FOR PITCHING BATTLE

The Brainerd N. P. team is all set for the New York Mills nine, which comes to Brainerd tomorrow, accompanied by a large coterie of fans, all prepared to take the locals into camp and add the seventh victory to their record for the season.

The visitors have a great reputation for hard playing, and with their ace, Repola, on the mound, they are all rarin' to trample on the Brainerd team. The locals, however, are champing at the bit to be up and at 'em, with the minds stirred with the thought of their run of losses this year, and every man will be in there fighting for their first victory.

Zakariassen will add greatly to the strength of the local team, and his smoke ball is expected to have a lot to do with the game. With his two years of college experience, with one of the best colleges of the middle west, he is much more effective even than when he pitched the Brainerd high school to its first baseball championship two years ago.

The admission price for tomorrow's game will include seats in the grandstand, and a large crowd is hoped for. The game will start at 3 P. M. The umpire for the game will be Andy Smraker.

The starting line-ups will be as follows:

BRAINERD

Hanson—first base.	
Peterson—second base.	
Uddenberg—short stop.	
Ware—third base.	
Anderson—left field.	
Nutting—center field.	
Shedlo—right field.	
Norman—catcher.	
Zakariassen—pitcher.	

NEW YORK MILLS

Hilden—center field.	
Gregerson—second base.	
Knorr—short stop.	
Shearer—first base.	
Jarvinen—third base.	
Rock—left field.	
Kent—right field.	
Jacobson—catcher.	
Repola—pitcher.	

AMERICA TRIUMPHS OVER FRENCH PLAYERS

Paris, June 12.—(UP)—America triumphed over France in the semi-finals of men's doubles of the hard courts championship matches today when Vincent Richards and Howard Kinsey beat Jean Borotra and Rene La Coste 9-7, 9-11, 3-6, 6-3, 7-5.

Henri Cochet and Jacques Brugnon beat Kozeluh and Macenauer of Czechoslovakia, 3-6, 6-4, 6-2, 1-6, 6-8. They will meet Kinsey and Richards in the finals.

England had her turn at victory when Evelyn Collier and Miss Kittie McKane Godfree defeated Elizabeth Ryan and Miss Mary K. Browne in the women's doubles 5-7, 6-4, 6-2.

BRAINERD'S ODDEST STORIES OF TODAY

The attorney general will have cause to scratch his head, since he has been called upon to decide whether a 4 months old baby can legally fly in Minnesota waters. Several days ago a game warden near Long Lake reported that he saw a couple on a boat each with a line out, while a third line ran from the rear of the boat. He called to them warning them to use but one line for each person. The couple answered that they were obeying the law. The warden rowed out to their boat and found that the line he objected to was tied to the wrist of a baby. The game warden didn't know what to do so he decided to leave it to the attorney general. He wants to know whether he should have arrested the baby, the couple or none of them.

Origin of Cynosure

The word "cynosure" comes from the Greek Kynosoura, meaning "a dog's tail." The dog's tail is another name for the constellation of the Lesser Bear, which contains the North star, the fixed point around which all the other constellations revolve. Hence the word cynosure is applied to one who attracts general attention, the center toward which all eyes are directed.

Watching the Scoreboard

Yesterday's Hero—McManus, the St. Louis third baseman, who broke up a 10 inning game with the Red Sox when he singled with the bases full and two out giving the Browns a 4 to 3 victory.

The Cubs made 17 hits to bring an end to the Braves winning streak of eight straight. Chicago won 7 to 6.

Koenig and Gehrig each got four hits when the Yankees made it four in a row from the Tigers, 9 to 3.

Vic Keene subdued the Giants and the Cardinals won their third game from the New Yorkers, 10 to 2.

Rube Bressler's triple in the 11th gave the Reds a hard fought game with the Robins. Ten pitchers were used in the 8 to 6 encounter.

Wrightstone with two doubles, a triple and a homer in six times at bat led the Phillies in their 13 to 11 defeat of Pittsburgh.

The Colonels rallied in the ninth inning, put over four runs and won out from the Saints, 8 to 6.

Coming from behind the Blues downed the Hens 5 to 3 and evened up the series.

Staging a ninth inning rally, which netted them four runs, the Indians downed the Millers 10 to 7.

Rain prevented the Brewer-Senator contest.

FARMERS FLOCK TO FILE CLAIMS FOR HAIL INSURANCE

Mott, N. D., June 12.—(UP)—Farmers flocked to the court here today to file their claims for state hail insurance payments following one of the worst storms in years here Friday night.

The hail still was two inches deep in some places southeast of here today.

Immense damage was done by the hailstones, windows were smashed, crops were beat to the ground and creeks overflowed and flooded surrounding land.

FLY FROM ST. PAUL TO FARGO, N. D.

Fargo, N. D., June 12.—(UP)—Earl Vance and Frank Wyle, of Sidney, Mont., flying to their homes from Orlando, Fla., reached Fargo at 10 a. m. today.

Vance and Wyle left the St. Paul airport at 6:30 a. m. today. Their flying time between Orlando and Fargo was 24 hours and five minutes. The distance roughly is 1,800 miles.

Vance is completing a round trip which started last November when he and his wife flew from Montana to Orlando to spend the winter.

SWEDISH ROYALTY GREETED IN GOTHAM BY GOVERNOR SMITH

New York, June 12.—(UP)—Crown Prince Gustav Adolphus of Sweden made his last public appearance in New York today when he was greeted by Gov. Smith on the steps of the city hall. Later he left for Glen Cove with crown princess for luncheon with Mr. and Mrs. Harold Irving Pratt.

Monday the royal couple will depart to see some of the rest of the country, their itinerary for that day including an automobile trip from Greenwich, Conn., social colony to Yale university.

Keeping Turkey at Home

A short piece of light board fastened across a turkey's back will prevent the bird from flying over a fence. Cut notches or bore holes in the board and tie with a strip of cloth to each wing. When the wings are raised they strike against the board and flying is prevented. The length of the board should be about the same as the thickness of the turkey's body from side to side.—Pathfinder Magazine.

Origin of "Match"

The derivation of the term "match" as used in its present sense is obscure. It is probably from the Greek and Latin "myxa," meaning a nozzle of a lamp. In 1397 we find reference in literature to matches, the name being applied to the wick of a candle or lamp. The earliest reference to matches in their present sense is found in 1530.

Both Talk the Same Line

The perfect social evening is where women talk shopping while their husbands talk shop.—Dayton News.

Time's Changes

In the old days people spent less money foolishly in a year than modern folks do in a week.—Atchison Globe.

Where Demos Slipped

Majorities have their way, but minorities can make it mighty uncomfortable for them.—St. Louis Globe-Democrat.

COLLEGE TRACK AND FIELD STARS GATHER TODAY

ASSEMBLE AT CHICAGO FOR NATIONAL COLLEGIATE A. A. GAMES

NUMEROUS ATHLETES BELIEVED CAPABLE OF BREAKING RECORDS

By BERT M. DENBY

(United Press Staff Correspondent)
Chicago, June 12.—The greatest collection of college track and field stars ever gathered lined up on Soldiers' Field today for the National Collegiate A. A. games.

No numerous are the athletes capable of breaking records it appears almost certain that before nightfall several new names will have found their places in the record books.

No college meet in the country ever contained such a list of big names. Each event has enough real class entered to provide a good competition and it seems from the entry list that no record will be safe.

Already one mark has fallen. Fred Alderman, Michigan State, set a new national collegiate record when he won his preliminary heat in the 220 yard dash in 21.7 seconds, one tenth of a second better than the old record.

Alderman's performance was distinctly a surprise. He made the mark on a slow track and judging from the way he covered the distance yesterday a fast track should see the record further lowered.

Roland Locke, the Nebraska flyer, has trained for four weeks for a supreme try at lowering the 100 yard dash mark. He should win his race today. There will be plenty of good competition to make him hustle for Hester, Michigan, and Alderman will be right on his heels at the finish.

Another great duel looms between Werner, Illinois; Dye, Southern California, and Guthrie, Ohio State, in the hurdles.

John Kuck, Kansas State Teachers' college, and Bud Houser, Southern California, should be one one two in the weights. Both men are record holders and have trained for the meet for several weeks.

Cloudy skies today followed a siege of rain during the night and a damp track may prevent some record breaking. However, the track is so built as to allow its drying out within an hour or so of sunshine and it may be fast this afternoon.

Duck Nests in Trees

The wood duck, the Beau Brummel of all wild fowl, is often referred to as the tree duck. The reason for this is that very often it nests in trees adjacent to water, remarks the Milwaukee Journal. In Arkansas it is called the squealer, deriving its name from the peculiar call it makes.

Many Varieties of Roses

Most botanists recognize about 100 species of roses. The number of horticultural varieties, crosses and hybrids, however, is very large, more than 3,000 varieties being listed in French catalogues, with new ones added every year.

ELKS FLAG DAY EXERCISES

Anniversary of Birth of American Flag to be Observed June 15

AT LUM PARK

Hon. L. C. Hodgson, "Larry Ho," to be Speaker of the Day

Brainerd Elks will celebrate the observance of Flag Day exercises, the observance of the anniversary of the birth of the American flag, at Lum Park on June 15, at 8 p. m. The services are open to the public.

The principal speaker will be Hon. L. C. "Larry Ho," Hodgson, mayor of St. Paul. Mayor Hodgson is well known in this district having appeared here on previous occasions. He is a forcible and inspiring speaker and the impressions gained from his remarks will kindle anew that spark of patriotism to the flag.

The Elks are out to make the day a red letter day in the history of E.kdom.

NO CANDIDATE FILED FOR MAYOR

Up till press time today there had been no candidate filed at the office of the city clerk to oppose Mayor George A. Cain in the recall election on June 21.

The city clerk's office however will be open till 5 p. m. today and it is possible that a candidate may be filed by that time.

Closing Hymn Congregation

Always, Except—

Mrs. Murphy—"To have a happy married life, husband and wife must agree." Mrs. Casey—"Well, me and my old man always agree, except, of course, when he's wrong."

Reproving Faults

He had such a gentle method of reproving their faults that they were not so much afraid as ashamed to repeat them.—Atterbury.

RAINS HELP OUT HIGHWAYS

Practically First Opportunity For Maintenance Men to do Effective Work

W. M. MURPHY INTERVIEWED
County Highway Engineer Covers in Detail County Roads

Rain in the past week has helped out the roads in Crow Wing county immensely. This is practically the first opportunity the maintenance men have had in smoothing up the surface of the road of the county roads, it was stated this morning by W. M. Murphy, county highway engineer who gave a report on the condition of the roads.

The rains have been fairly general throughout the county though more rain fell in the southern part of the county than in the north.

State Road No. 1 which the state is using for the present time as the detour for Trunk Highway No. 27 is being gravelled by the state and will be brought up by them to the degree of excellency that it was when taken over by the state for detour purposes. This will revert back to county at the time of completion of paving.

State Road No. 2, Dewing Highway. This road is east and west road through southern tier townships, running east and west connecting Trunk Highway No. 27 with Trunk Highway No. 18 and are in good condition throughout the entire length, especially the three miles built last year by the county in Plate Lake township.

State Road No. 3, Merrifield road, is in good condition of entire length from Brainerd to Emily. The proposed work on the bridge is coming along fast, the tarring of which will be commenced next week. The bridge is known as the M and L old railway bridge.

State Road No. 4, Crosby north to Emily and to the Cass county line is in good condition the entire length. Grading has been started on the mile and one half strip north of Crosby but the work does not interfere with the present travelled road as the new location goes farther west and simply touches the road at both ends.

State Road No. 5, Deerwood south to Trunk Highway No. 18 at point 17 miles east of Brainerd is good the entire length of 10 miles.

State Road No. 6 connecting State Road No. 3, one mile and one half north of Merrifield at so called Hunt's corner, running on the west side of Lake Edwards and Pelican Lake to Brezzy Point, thence to Pequot, is a little rough the first few miles, due to cutting out of the curve which is being carried on by county equipment. This work will be completed next day or so and will add much to the pleasure of driving by making long easy curves. This is one of the most scenic drives in the county, winding as it does through pine areas interspersed by that lady of the forests, the white birch. It is not a wide highway but an improvement trail whose surface is smooth and where there is no danger of collisions. Here the tourist can see the beauties of the northern forests and lakes.

White lines of which the county maintains 150 miles are simply improved trails which have been widened and sharp curves eliminated as much as possible. The surface is smooth so that it makes a pleasant drive. The white line roads are all in good condition.

Crow Wing county is the pioneer in establishing white line roads and it is believed that these distributes the road users' money to better advantage and gives all parts of the county a good road system.

NATIONAL RURAL LETTER CARRIERS

To Hold Picnic at Lum Park Tomorrow Afternoon

FIVE COUNTIES REPRESENTED
150 to 200 People Expected to Attend, Pleasing Program Arranged

Five local organizations of the National Rural Letter Carrier's association will hold a picnic tomorrow, Sunday, June 13, at Lum Park. Crow Wing, Morrison, Milaca, Todd and Wadena counties will be represented and invitations have been extended to Hubbard and Benton counties.

Fully 150 to 200 people are expected to attend. There will be a program of sports, everyone will bring a picnic dinner and coffee will be furnished free. Those on the local committee are Mr. and Mrs. Robert Falconer and the general chairman is J. H. Perkins of Long Prairie. Speakers at the gathering will be Donald Lee of Long Prairie and Carl Adams of Brainerd.

ORDINANCE NO. 325

AMENDING ORDINANCE NUMBER 312, AN ORDINANCE REGULATING THE TIME OF PARKING OF MOTOR VEHICLES IN THE CITY OF BRAINERD.

The City Council of the City of Brainerd do ordain:

Section 1. That Section 1, of Ordinance Number 312, of the City of Brainerd, be, and the same hereby is amended to read as follows:

No person except properly licensed physicians or surgeons shall leave any motor or other vehicle standing unattended for more than sixty (60) minutes continuously between the hours of ten (10) o'clock A. M. and five (5) o'clock P. M. on any of the streets in the City of Brainerd hereinafter named: Laurel Street, between Fifth Street and Eighth Street, Seventh Street, between Front and Laurel Streets, Sixth Street, between Front and Maple Streets, and the south side of Front Street from Fifth to Eighth Streets.

The vehicle of such physicians or surgeons shall bear upon the front thereof an emblem recommended by the American Medical Association and approved by the Chief of Police.

Section 2. This ordinance shall take effect and be in force from and after the date of its publication.

Passed 7th day of June, 1926.

WM. J. LYONAIS,
President of City Council.

Approved 9th day of June, 1926.

GEO. A. CAIN,
Mayor.

(Seal)

Attest: E. T. FLEENER,
City Clerk.

Published 12th day of June, 1926.

LABOR MEETING LAST NIGHT

Held in Court House Under Auspices of Trades & Labor

THREE INTERESTING TALKS
R. A. Henning, Jean E. Spielman and E. G. Hall Were Speakers

The labor meeting which was held last night in the farmers room of the court house under the auspices of Trades and Labor was well attended. Three very interesting addresses were given by R. A. Henning, a former mayor of Brainerd and now the head of the Federated shop crafts of Minneapolis, Jean E. Spielman a representative of the International Brotherhood of Bookbinders, Minneapolis, and E. G. Hall, President of the State Federation of Labor.

A moving picture under the auspices of the Women's department of the American Federation of Labor was shown, revealing the contrast between union and non union laborers. O. J. Bouria acted as chairman of the meeting, which was held to interest the workers in Brainerd in organization and to reorganize the shop men.

AN INTERESTING LETTER

C. H. Post of New York, Confirmed Fan Boosting Leslie Bush, Writes to H. P. Dunn

C. H. Post is a wealthy manufacturer of New York city and a friend of H. P. Dunn. He follows closely the pitching of Joe Bush and writes Mr. Dunn many letters about Bush and encloses many clippings of games played. Under date of June 9, Mr. Post writes as follows:

Dear Mr. Dunn:

I thought you might be interested in hearing from an old friend.

I was a delegate from my church in Brooklyn to the Diocesan convention at Garden City last month.

At dinner, a Minister sat to my left whom I didn't know, and at his left was another Minister, also a stranger.

I overheard the Minister sitting next to me mention about when he was living in Brainerd, Minn. After he had finished, I said: "Brainerd, Minn., the home of Joe Bush and H. P. Dunn."

He looked at me in astonishment and said: "For Heavens sake, do you know H. P. Dunn?"

I said: "Yes, I have heard of him." "Why, he is one of my old chums," he replied.

This gentleman was the Rev. Joseph R. Allen.

So you see, Brainerd, Minn., is not so far from New York as one would think.

I saw the Yanks knock our old friend Joe out of the box one day last week. I really felt sorry for the

A Smock Can Be Worn Every Day With A Great Deal of Comfort

If you are not wearing a smock this summer you are missing the use of one of the most comfortable and satisfactory garments that has been in style for some time.

There is considerable difference in smocks also. You will find those we are showing to be cut very full and roomy at the right points. They are five or six inches longer than most makes, are made with an inverted plait in the back, and have the sleeves cut with a raglan shoulder, giving plenty of freedom. Try one of these at

\$2.00, \$2.39, \$3.00, \$3.50

Moth Proof Bags

To pack away your coat or any fur or wool garment, simply put it in one of these moth proof bags, seal up the top, and forget it till you need it next fall, and it will come out all right. At this price one cannot afford to take a chance. Each 10c.

Coat Hangers

All the coat hangers Mr. Michael had, put with all that we had, gives us about 1,000 more coat hangers than we have use for. To close these out, we are selling them at a surprisingly low price. Some are varnished round styles, others waxed flat shape. Any of them, three for 5c.

ROUTED BY A VOLLEY OF SHOTS

A MYSTERIOUS ASSAILANT AT- TACKS FIVE MEN IN MINNEAPOLIS

Minneapolis, Minn., June 12.—Five men who were walking past a truck on a street here early today were routed by a volley of shots from a mysterious assailant and one wounded so seriously he may die.

Guy Dunham, 28, and four friends stopped to look at the truck. It was piled high with five-gallon jugs. Just as Dunham reached out to pick up one, the shooting began. His friends took him to his apartment. Later he was removed to a hospital. He has several bullet wounds.

Police believe the jugs contained liquor, and that Dunham's tampering with them caused the truck driver to fear that police were about to raid his cargo, and opened fire.

Minneapolis, June 12.—Admitting he fired the shots that wounded Guy Dunham early today, Pete Rieves surrendered to police. He said he believed Dunham and four friends who gathered around a truck load of his liquor were hijackers. They refused to leave, he said, whereupon he opened fire.

LIVESTOCK, PRODUCE GRAIN AND BONDS

CHICAGO LIVESTOCK

Chicago, June 12.—(By Department of Agriculture)—CATTLE—Receipts, 1,000. Yearlings and medium fed steers 10¢ to 15¢ higher; better light-weight yearlings showed most advance; light heifers also advanced; heavy steers fluctuated, closed steady to weak; finished heavy steers worked into strongest position; top on heavies \$10.65; medium \$10.35 to \$10.45; yearlings \$10.35; one load at \$10.50; fat cows and heifers 25¢ higher; canners and cutters strong, mostly 25¢ higher; bulls 35¢ to 50¢ higher; vealers \$1 to \$1.50 lower. RIVERS AND HARBORS BILL

EFFORTS TO BE MADE TO BRING IT TO THE FLOOR OF SENATE

Washington, June 12.—(UP)—An effort will be made next week to bring the rivers and harbors bill authorizing a score of navigation projects to the floor of the senate.

Sen. Johnson, republican, California, served notice before the senate commerce committee, considering the bill, that unless hearings were completed next week he would move to take the bill to the floor of the senate.

"If we delay we will have no bill at all this session," Johnson said.

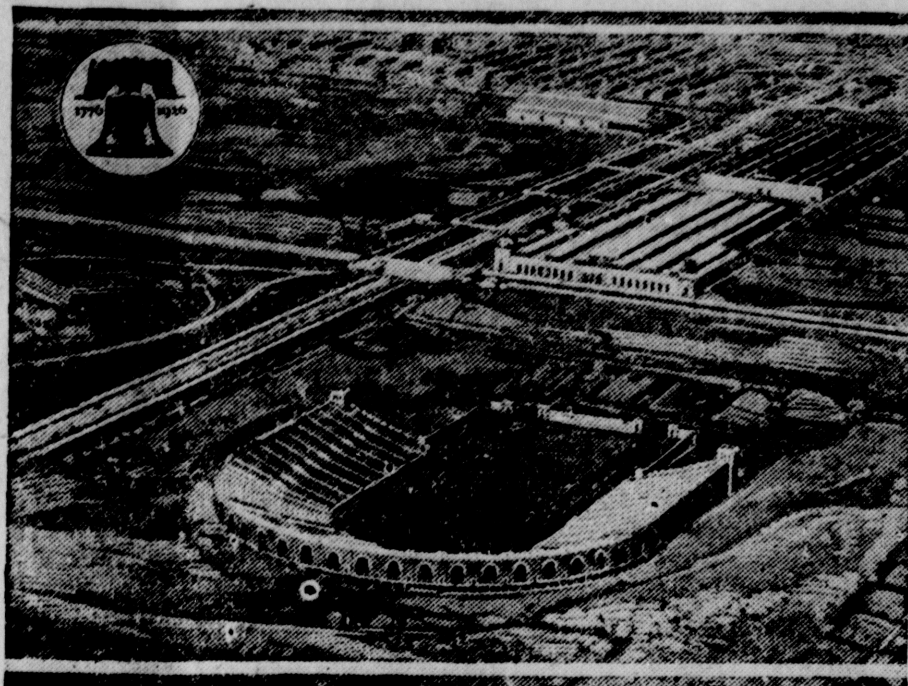

Point in Health

Don't neglect little scratches and cuts because they are not important looking. A pin prick has caused death through infection. If you keep a wound clean you are doing all that is humanly possible to guard against blood poisoning.

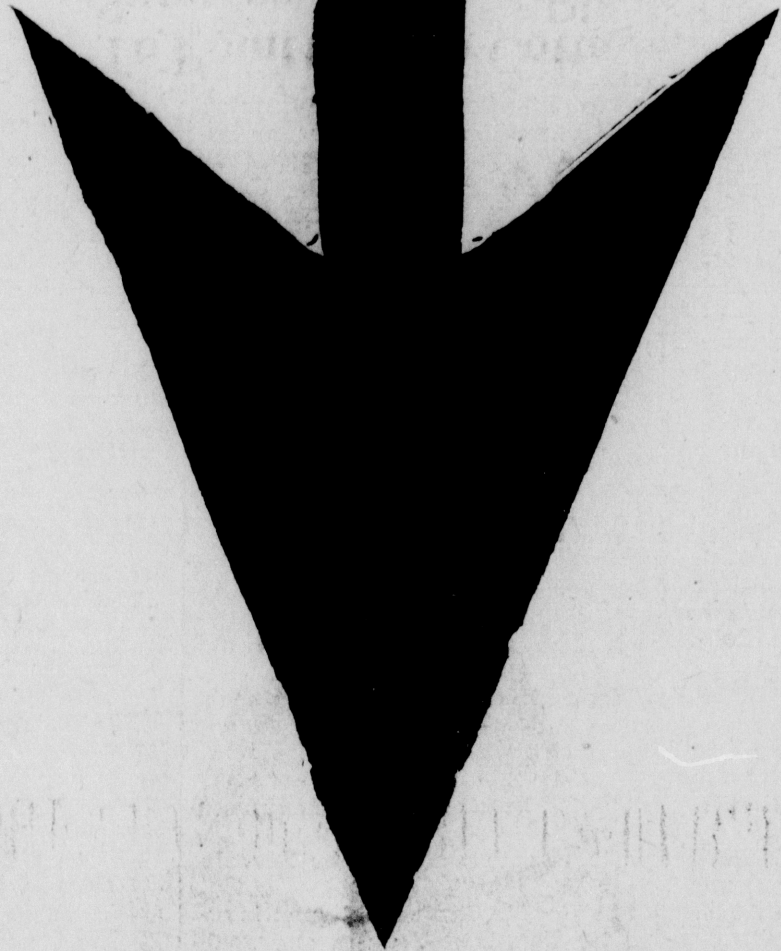

Scratch Vs. Giggle

Our idea of a good time is a ticklish boy with the seven-year itch.—University of Washington Columns.

THE SESQUI FROM THE AIR

An idea of the size and scope of the Sesqui-Centennial International Exposition, which will be held in Philadelphia from June 1 to December 1, to commemorate the 150th anniversary of the Declaration of American Independence, is given in this photograph. In the foreground is the great Municipal Stadium, which seats 100,000 persons. North of the stadium can be seen two of the vast exhibition buildings. The first is the Palace of Agriculture and the second the Palace of Liberal Arts. Opposite the latter building is the big auditorium, which seats 20,000 persons on a single floor. To the left of the stadium can be seen the world famous Indian building, the Taj Mahal.
